

REQUEST FOR DAIRY EDUCATOR VISIT

The Ontario Dairy Education Program is:

- **FREE** - Dairy Farmers of Ontario offers this program FREE of charge.
- **CURRICULUM LINKED** - designed to link strands from the Ontario Curriculum for Elementary Students to agriculture and facets of the dairy industry.
- **INTERACTIVE** - the program elements involve interactive teaching strategies that allow students to meet many of Ontario's current educational curriculum standards.

Our educator will incorporate a variety of teaching methods during her **45-minute** presentations. Discussions, co-operative learning, concrete materials, hands-on and SMART Board activities will be used in order to accommodate different learning needs and ability levels. **Due to the level of interactive activities within the presentation, combining classes is not permitted. Please allow 15 minutes between presentations if the educator has to change rooms.**

To book your school's presentations, complete the following information.

Name of School _____

Address _____ Postal Code _____

Contact Teacher _____ Telephone _____

E-mail _____

Detailed directions to your school (from Mississauga) _____
